

# Bad Indication

## Off Broadway

If the world revolved around you  
We would try to escape to Mars  
If we take away our rocket fuel  
We're gonna escape in cars  
You try to steal our girlfriends  
We're gonna cut you downtown  
You come around our neighborhood  
Gonna run you out of town  
Gonna run you out of town  
Don't you know, you're a bad indication  
Try to come around, we're gonna cut you down  
Don't you know, you're a sad invitation  
Try to hang around the other side of town  
If the world revolved around you  
We will try to fill you in  
We'd attack with all artillery  
'Til your shelter walls cave in  
You try to pinch our girlfriends  
With your selfish, shellfish claw  
You try to crash our party boy  
We'll crush you in our jaw  
Here we do it, crush you in our jaw  
Don't you know, you're a bad indication  
Try to come around, we're gonna cut you down  
Don't you know, you're a sad invitation  
Try to hang around the other side of town  
Don't you know, you're a bad indication  
Try to come around, we're gonna cut you down  
Don't you know, you're a sad invitation  
Try to hang around the other side of town  
Let the world revolve around you  
Let the world revolve around you
