Healing

Under The Flood

Shake me
Cause I'm not awake I'm dreaming
This'll all go away it's not happening to me
It's not happening to me
And then it hit me
And it took me off of my feet
Suddenly I was empty
From losing all the parts of me
That I wish wouldn't leave
And could you tell me what it's like to be alone
Cause I don't know
And could you tell me what it's like to let them go
And all I have left is falling
Somebody shake me and wake me
Cause I must be dreaming
Take me away, take me away
Cause I can't stay in this place
Take me away, take me away
I must be dreaming
Sinking far away from feeling
Like all of this is happening to me

It's not happening to me
Take me away from all the pain
Cause it's pouring over me
I can't get away from all the pain in me
And could you tell me what it's like to be alone
Cause I don't know
And could you tell me what it's like to let them go
[Chorus]Look around, I'm face down on the ground
I'm callin out to you
Cause the hardest part of hurting is healing
You wonder why your eyes are so wide
You're looking for a sign
Cause everything is gonna be allright.
And all I have left is falling around me
And take me away, Cause I must be dreaming
[Chorus]And all I have left is falling...
