Hey y'all, what's going on? Been waiting on this all day long.
When you're up for anything A to Z, no you don't need no plan B.
Go on pop the cord, go on tap the keg, go on get some red up in your neck.
This is one of them nights you just can't miss,
And it goes a little, goes a little something like this.Come on now everybody, whether you're in a bar, in a club,
Or just kicking it country style, VIP in the back of a truck.Hey y'all
When the girls walk by we'll be like, hey y'all
If we get it right they'll be like, hey y'all
Wanna rock with us tonight?
Hey y'all, damn right.Hey y'all, now what you think? Got the party rolling like a skating rink.
So bottoms up, if you're throwing down in a big city, small city, anywhere town.
I hear you son, I hear you girl; done got tipsy, like a tilt-a-whirl.
Yeah you're dancing going strong, careful now don't shake it off.Come on now everybody, whether you're in a bar, in a club,
Or just kicking it country style, VIP in the back of a truck.Hey y'all
When the girls walk by we'll be like, hey y'all
If we get it right they'll be like, hey y'all
Wanna rock with us tonight?
Hey y'all, damn right.Come on now everybody (come on now everybody)
I wanna hear everybody (I wanna hear everybody)
If you're with me everybody, everybody singHey y'all
When the girls walk by we'll be like, hey y'all
If we get it right they'll be like, hey y'all
Wanna rock with us tonight?
Wanna roll with us tonight?
Hey y'all, damn right.(Hey y'all)
