## **Famous**

## **Charli XCX**

Bored on Friday night, spinning round just like I'm hypnotized, oh Need some neon lights, wanna feel like I'm electrified, so help me out

Get your boyfriend's car, come and pick me up

Oh, let's take it for a ride

What trouble can we find? One night and we're gonna come and crash the party

Weren't invited but we're feelin' so outrageous

Just like we're famous

Got one night, and we're gonna come and get it started

Now we're falling down the stairs, we act so shameless

(Come on, let's lose control, like!)One night and we're gonna come and crash the party

Weren't invited but we're feelin' so outrageous

Just like we're famous

Got one night, and we're gonna come and get it started

Now we're falling down the stairs, we act so shameless

Just like we're famous (oh oh oh oh oh, oh oh oh oh)

Just like we're famousBlown up like balloons, purple glitter flying through the air, oh

Sweat drips from the roof, hangin' out with Lucy in the sky of diamonds

Music playing loud, take me through the crowd, oh

Put your sunglasses on, don't care if we look dumbOne night and we're gonna come and crash the party

Weren't invited but we're feelin' so outrageous

Just like we're famous

Got one night, and we're gonna come and get it started

Now we're falling down the stairs, we act so shameless

(Come on, let's lose control, like!)One night and we're gonna come and crash the party

Weren't invited but we're feelin' so outrageous

Just like we're famous

Got one night, and we're gonna come and get it started

Now we're falling down the stairs, we act so shameless

Weren't invited but we're feelin' so outrageous

Just like we're famous

Got one night, and we're gonna come and get it started

Now we're falling down the stairs, we act so shameless

Just like we're famous Just like we're famous (oh oh oh)Just like we're famous
