

# We Tried

## The Drums

I needed a place to go  
Yeah that's what you told me  
So I went to your house  
To try to find you in your room  
Why cant I find you now Walking alone tonight  
Wishing you were still here  
Wishing things were alright We tried, oh yeah  
We tried, and we died  
We tried, oh yeah  
We tired, and we died We took down the icicles  
The way they'd melt in your hand  
You told me you loved me  
At an age I didn't understand
