

When You Smile

Rachel White

This is a little bit strange for me to say
I know I really only know your name
But somehow when I see your face
It takes me off to some other place
And I can't help myself I love your eyes when they look my way
Blue as the sky on a crystal day
Somehow they make me complete
I forget my troubles when I see the smile
On your face This feeling sure hit me hard
Came out of nowhere
And went straight to my heart
I don't know how or why
But you make me feel alive
And every time you touch my hand
I know I'll be alright
That look in your eyes
You know it just doesn't lie
And neither does
The way I feel when you smile I think it's crazy that I feel this way
So many things that I want to say
I know there's something more to this
Sometimes life don't make much sense
But somehow, this just feels right This feeling sure hit me hard
Came out of nowhere and went straight to my heart
I don't know how or why
But you make me feel alive
And every time you touch my hand
I know I'll be alright
That look in your eyes
You know it just doesn't lie
And neither does
The way I feel when you smile It's a little bit scary to think about
Everything I'm finding out
And sometimes I can't quite meet your eyes
But that doesn't mean I don't feel the same
Cause boy you're always on my brain
You've just got me so mesmerized This feeling sure hit me hard
It came out of nowhere and went straight to my heart
I don't know how or why

But you make me feel alive
And every time you touch my hand
I know I'll be alright
That look in your eyes
You know it just doesn't lie
And neither does
The way I feel when you smile
When you smile
When you smile
