Second Chance

George Canyon

SECOND CHANCE - George Canyon (What I Do)Now, Whod of thought, wed end up this way,
Talkin to each other, like the enemy
Theres really only three words, I should say
But even if I did, would you hear them any wayWe should have read the signs
We could have made more time
Why was I so blind
To what was out in front of meI never thought Id be the last to know
I never thought youd be the first to go
Forever never lasts too long enough for us to have a chance to holdSo take me by the hand Im on my knees
Together we will stand now I belieeeeeeeve
Somewhere in that plan theres gotta be
A second chance for you and me.There was a time when we made history
But the dream we tried to keep became the casualty.
We traded paradise for misery
What was once a house of love, is now a battlefieldWe should have read the signs
We could have made more time
Why was I so blind
To what was out in front of meI never thought Id be the last to know
I never thought youd be the first to go
Forever never lasts too long enough for us to have a chance to holdSo take me by the hand Im on my knees
Together we will stand now I belieeeeeeeve
Somewhere in that plan theres gotta be
A second chance for you and me.Its not about what we want
Its all about holdin o-o-o-o nnnnnnI never thought Id be the first to cry
This doesnt have to be our last goodbye
Forevers gonna wait just long enough for us
To fight for one more trySo take me by the hand Im on my knees
Together we will stand now I belieeeeeeeve
Somewhere in that plan there hadta be
A second chance for you and me.
A second chance for you and me
A second chance for you and me-e-e-e-e
Somewhere in that plan there had to be-e-e-e-e
A second chance for you and me-e-e-e-e.
