

# What About Love

## 'Til Tuesday

[i think this is in gm]Living on silence  
Living by the book  
You get it to a science  
Of living on one good look  
So put out all the fires  
And blow away the smoke  
I'm getting pretty tired  
Of living on hopeSo what about love, baby  
What about making room for two  
What about love, baby  
What about youLiving on daydreams  
Walking in my sleep  
And nothing is as it seems  
When you're in so deep  
So put out all the fires  
And blow away the smoke  
Unless you're getting tired  
Of living on hopeSo what about love, baby  
What about making room for two  
What about love, baby  
What about youSo what about love, baby  
What about making room for two  
What about love, baby  
What about youWhat about you  
What about you  
What about me
