

# The Answer to Everything

[Del Shannon](#)

Don't ask me a mountain of questions  
When there is only one answer to it all  
Do you love me, really love me as I love you  
It's the answer to everything if you do  
Don't give me a million excuses  
When I am waiting with my arms open wide  
Do you love me, really love me as I love you  
It's the answer to everything if you do  
If there is someone else, some other place who holds your heart  
Tell me now, truthfully, before we start  
Don't act like you misunderstand me  
When there is simply no mystery to it all  
Do you love me, really love me as I love you  
It's the answer to everything if you do
