You Were Made to Love

Jeffrey Osborne

Love is everything that you are to me
Your reflection shows a glimpse of heaven
Love is allaround when you're here with me
Stay around to love me, leave me never....never

I know they made the sun to brighten up the day
theymade the moon to light the night
and then baby they made you... oh so beautiful
then they sprinkled you with suga and some spice
You were made to love

Your love made me change in so many ways
Changes that were so much for the better
You made me wanna live through the tryin' days
Just to have your love that's all that matters...now and forever

I know the made the bees to pollenate the flowers
they made the trees to bear the fruit of life
and then baby they made you...oh so beautiful
then they sprinkled you with suga and some spice

You...you..you were made to love
and I love you
