

# Cosmic Universal Fashion

## Sammy Hagar

One man coming with a vision  
One man got it with a plan  
Got love, got passion  
Here comes solution in a can, well Everybody's changing their shoes  
Everybody's washing their hands  
Everybody's got a new hairdo  
Everybody's making new plans Cosmic universal fashion Right now, standing at the crossroads  
Right now, halfway there  
Right now, world's getting smaller  
Right now, people need care Right now, Euro beat dollar  
Right now, dollar beat yen  
Right now, oil beat everything  
Right now, pure water gonna win [Incomprehensible] Hardcore, better get a vision  
So sweet divine poverty  
Overpriced genetic implants  
Sooner we're gon' trash parlor tree, well Everybody's changing their shoes  
Everybody's washing their hands  
Everybody's got a new hairdo  
Everybody's making new plans Cosmic universal fashion Right now, standing at the crossroads  
Right now, halfway there  
Right now, world's getting smaller  
Right now, people need care Right now, Euro vs. dollar  
Right now, dollar vs. yen  
Right now, oil vs. everything  
Right now, someday the water gonna win, yeah Whatcha gonna do?  
Whatcha gonna do about it?  
Whatcha gonna do?  
Hey, whatcha gonna do about it? Whatcha gonna? Whatcha gonna?  
Whatcha gonna do about it? Hey  
Whatcha gonna, whatcha gonna  
Whatcha gonna do about it? Hey, hey  
What we gonna do? Cosmic universal fashion Right now, standing at the crossroads  
Right now, halfway there  
Right now, world's getting smaller  
Right now, people need care Right now, Euro vs. dollar  
Right now, dollar vs. yen  
Right now, oil vs. everything  
Right now, water gonna win Everybody's changing their shoes  
Washing their hands, making new plans
