

Whales

Armand Amar

They're singing songs like us

Why don't we communicate

Their lifestyle is floating

Remember, they're like us

They're coming from afar

Remember, they're astral

What is wrong with their orientation

Where is the error? ?

What do we know of their orientation Tell me why do whales run ashore? ? We're living like islands

No neighbours to talk or play with

The ocean is endless

There's liquid forever

Our race is so lonely

We're stranded, they landed, tell me.. What is wrong with our orientation

Where is the error? ?

What do we know of our orientation.. We're stranded, they landed..

We need someone to talk to!!!
