I Still Believe

Danny Gokey

I've been lookin for a light at then end of this tunnel
I've been searchin for a sign to lead me home
To mend the endless nights of sorrow
But on the other side of this I know that my heart will liveNever saw a man walk on water
Never met a man who walked on water
But I still believeI don't understand many things
Like the miracle in love and all my dreams
But I still believeAnd the more I live my life; the less that I question
All the things I just can't see right in front of my eyes
So I take that leap of faith and learn a few lessons
Time will show me this what you give is what you getNever saw a man walk on water
Never met a man who walked on water
But I still believeI don't know the answer to my prayers;
But I keep kneeling down like someone's there
Cause I still believeYeah I guess I could give up
There are days I wanna run away from everything
But what good would that do for me yeah
Ohh ohh ohh ohh I I I still believeNever saw a man walk on water
Never met a man who walked on water
Oohhh but I still believe
Never saw a man walk on water
Never met a man who walked on water
But I still believe yes I doI don't really know what tomorrow will bring
But I'm open to all possibilities
Cause I still believeNever saw a man walk on water
Never met a man who walked on water
But I still believeI don't really know what tomorrow will bring
But I'm open to all possibilities
But I but I believeNever saw a man never saw a man never saw a man
Who walked on water
Never saw a man never saw a man never saw a man
Ohhhh but I but I but I believe it
But I but I but I believe
But I but I but I believe
Yeaahhh
