

When The Money's Gone

Cher

When the money's gone
Will you be my friend?
Float a small row boat till our ship comes in
When the winter nights, chill us to the soul
Will you feed the fire?
Spin the straw to gold
When the money's gone
When the money's gone
Will you get cold feet?
Will you still be there, if the ends don't meet?
If we're in red, just forget the green
Take a bus with me
No more limousines
When the money's gone
Will you still want me?
Oh what a fine life I give to you
All you ever want
Will you still be there?
Will you pull me through when the cash don't come?
Will you still love me wherever we fall?
When the money's gone
Oh, will you want me baby
Oh, will you need me baby
Oh, will you love me baby
When the money's gone?
Money, money, money's gone
When the money's gone
When the money's gone
When the money's gone
No more caviar
Will you eat fast food in a beat up car?
Live life modestly, lost in lotto dreams
Will you find your way through it all with me
Through it all with me?
Will you still love me?
Oh what a fine life I give to you
All you ever want
Will you still be there?
Will you pull me through when the cash don't come?

Whoa and if you're mine
Will you still love me wherever we fall?
When the money's gone
Oh, will you want me baby
Oh, will you need me baby
Oh, will you love me baby
When the money's gone?
Money, money, money's gone
When money's gone
When the money's all gone
When money's gone
When money's gone
And a mile off the shore
Flies a bird who'll land no more
As the tide pulls the sea
So you always will pull me
Forever more
Forever
Forever
Forever
Forever
Oh what a fine life I give to you
All you ever want
Oh will you still be there?
Will you pull me through when the cash don't come?
Whoa and if you're mine
Will you still love me wherever we fall?
When the money's gone
Oh, will you want me baby
Oh, will you need me baby
Oh, will you love me baby
When the money's gone?
Oh, will you want me baby
Oh, will you need me baby
Oh, will you love me baby
When the money's gone?
When money's gone?
When the money's all gone?
It's gone, all gone, gone
When the money's all gone?
Don't let it go
When the money's gone
Ooh money's gone
Ooh money's gone
Hmm the money's gone
