Big City Lights

Multipac

Big city lights don't shine for me no more
Yeah, know somebody took my angel
And now she's gone for sureThere's a street sign on a lamppost
Where we used to hang
It's on the corner of love and trust
Down by the river bankSomehow we lost our way
On the dark end of the street
Now we sit here every night
And listen to the band
And can you hear them say?Big city lights don't shine for me no more
Yeah, know somebody took my angel
And now she's gone for sure
They say somebody else who couldn't save them self
Big city lights don't shine for me no moreIf you ever come to our town
Don't go where angel plays
You know she'll take you under her wing
Then she'll just fly awayJust like she broke the heart
Of every boy from love and trust
Now we sit here every night
And listen to the band
And can you hear them say?Listen to us sayBig city lights don't shine for me no more
Yeah, know somebody took my angel
And now she's gone for sure
They say somebody else who couldn't save them self
Big city lights don't shine for me no more, no, noBig city lights don't shine for me no more
Yeah, know somebody took my angel
And now she's gone for sure
They say somebody else who couldn't save them self
Big City lights don't shine for me no moreBig city lights, big city lights
