

The Other Side

Galaxie 500

He sent me an envelope with himself inside
He sent me a letter with no letter inside
He sent me an envelope with himself insideReceiving letters from the other room
Receiving letters from the other roomBut I just saw him yesterday
But I just saw him the other day
But I just saw him yesterday
But I just saw him the other dayLast week, last second, last minute, last hour,
Last second, last minute, just a moment agoReceiving letters from the other room
Receiving letters from the other room
