

# Growing Pains

## Never Shout Never

Oh look at her walking around  
Like shes in love  
Oh look at me  
Pacing in circles  
Waiting on a phone call And every song that I wrote  
And every story that I told you at midnight  
They all mean the world  
Cuz there all that I have And every song that I sang  
You know that broken heart that you left behind  
No nothings the same  
When I'm around you girl Oh look at her walking around  
Like shes in love  
Oh look at me  
Pacing in circles  
Waiting on a phone call And every glance that I take  
When your not lookin your looking so good  
But when you stare me down  
Dead in the eye  
I got emotions I will not show And every time you look away  
I get this feeling in my gut  
Like I'm not good enough for you  
Oh I hope its not true Ohhh look at her walking around  
Like shes in love  
Ohhh look at me  
Pacing in circles  
Waiting on a phone call  
Oh look at her walking around  
Like shes in love  
Oh look at me  
Pacing in circles  
Waiting on a phone call
