

If I Can

Jinwoon & Changmin 2AM

I wanna be the one
Ooh, if I can, baby
Yeah
Girl, I wanna be, I wanna beWhen I fell
I always knew that we would do well
I never thought of you of a sell-out girl
I'd give my world to you, can't you tell
I will be there?But sometimes
You throw me off and get out of line
And I can't take this feeling inside, I get
I've been into you girl for sometime
Just come by my side 'cause all I wantI wanna be the one to hold you if I can
I would give you the stars above, you'll know who I am
I wanna be the one to show you, I'll make you stand
I wanna be the one, I wanna be the one if I canI'll never let you feel out of place
'Cause bein' with you, girl is an age to me
I hope this life will ever proceed
That's how we should beThere'll be times
When the day when you just won't leave my mind
I'd have to say that it's a different side of me
Better than candy for free, don't believe me when I sayI wanna be the one to hold you if I can
I would give you the stars above, you'll know who I am
I wanna be the one to show you, I'll make you stand
I wanna be the one, I wanna be the one if I canI wanna be the one to hold you if I can
I would give you the stars above, you'll know who I am
I wanna be the one to show you, I'll make you stand
I wanna be the one, I wanna be the one if I canMy heart is open, girl
If you notice it all
Girl, the time will come when I'll be the one
With you forever more, yeahI wanna be, I, I wanna be
I wanna be, girl, I wanna be
I wanna be, I, I wanna be
I wanna be, girl, I wanna beI wanna be, I, I wanna be
I wanna be, girl, I wanna be
Wanna be, wanna be the one, babe
I wanna be the one if I canI wanna be the one to hold you if I can
I would give you the stars above, you'll know who I am
I wanna be the one to show you I'll make you stand
I wanna be the one, I wanna be the one if I canI wanna be the one

I would give you the stars
I wanna be the one
I wanna be the one, I wanna be the one if I can
