## Sondre Lerche

This could be asking for more than I merit  
This could be testing your patience  
I really don't have a whole lot to draw from  
But I'd be willing to learn, only  
Don't expect too much style and finesse  
But don't be surprised if I impress  
I say this even though  
I'm almost sure by now you know  
I say this even though  
I'm almost sure by now you know
