Thieves

Lunic

Here we go, on our own
We'll make our own path, we won't look back
5am for a drive
The Monday sunrise makes us smile
In the moment we're free
Of all the bad things, little lovethieves
Here we go!I won't let you go
I like it here
For the first time I am happy
I feel alive
So let's driveThe simple things that we do
Make me thankful that I met you
Even when we get tired
We stay up talking or go out walking
With the wind in our face
We're so alive, we're so awake
Here we go!I won't let you go
I like it here
For the first time I am happy
I feel alive
So let's driveIt's a shame these things don't last forever
I'll never forget our time together
Don't know what happens in the end
I'm just glad I found a real friendRide that horse!!
