White Flags

Down With Webster

Lights dim with the window cracked
Twist the cap off the bottle
Take a sip, take a hit, fade to black
I promised that I'll win
And ever since I made the pact
I've been going for it
Like I never plan to make it back
I'm on this Novocaine and fucking feeling great
We're not Even Stevens
I say that for Steven's sake
I need a way out
Bye bye now, avedazane
Take another Tylenol if you wanna release the pain
Need change so I'm living what I rap about
I'm not acting this time, I'm acting out
Fuck your average, I want better than good enough
Surrendering to what I am
If you relate then put 'em up
Tonight we surrender
And leave here forever
White flags in the air
Wave 'em like you just don't care
Tonight we surrender
And leave here forever
White flags in the air
Wave 'em like you just don't care
How'd I end up in this place?
Pick me up off of the floor
Swinging through nights full of drinks
Fuck if I make it to shore
I feel it up in my veins, I feel it up in my bones
It's taking over my brain, it's taking over control
There's no use in fighting, I'm feeling like a titan
This shit is so electric man
I should be throwing lightening
So count me out of your life
And take it to the bank
And put your arms up if you're down to join the ranks
But then again you can't lose if you don't play

You can't wear out your welcome if you don't stay

So I'm going out to get it and I won't wait
Hands in the air if you get it in your own way
Tonight we surrender
And leave here forever
White flags in the air
Wave 'em like you just don't care
Tonight we surrender
And leave here forever
White flags in the air
Wave 'em like you just don't care
Wave 'em like you just don't care
Wave 'em like you just don't care
And if you feel like you're going nowhere
Then wave 'em like you just don't care
Cause tonight we surrender
Wave 'em like you just don't care
Tonight we surrender
And leave here forever
White flags in the air
Wave 'em like you just don't care
Tonight we surrender
And leave here forever
White flags in the air
Wave 'em like you just don't care
Wave 'em, wave 'em, eh, oh
Wave 'em like you just don't care
Wave 'em, wave 'em, eh, oh
Wave 'em like you just don't care
Wave 'em, wave 'em, eh, oh
Wave 'em like you just don't care
And if you feel like you're going nowhere
Then wave 'em like you just don't care
Cause tonight we surrender
Wave 'em like you just don't care
Wave 'em like you just don't care
Wave 'em like you just don't care
Wave 'em like you just don't care
