

# We're Coming Home

## Rogue Traders

You know we're falling to zero  
Hurtin' much more than it did before  
I'm always playin the hero  
Cleanin your mess as you walk out the door I'm counting things'll change now  
Taking it back where it all began  
Don't like this merry-go-round  
Gotta believe, believe we can We're coming home, we're coming home  
You know it's now or never  
No afterglow this time I know  
But I'm feelin' kinda better We're coming home, we're coming home  
You know it's now or never  
This time I know, this time I know  
It's going on forever I'm counting down to zero  
Diggin' my heels in the dirt again  
You're not a superhero  
Savin the world to the bitter end I think it's time that you knew  
I'm seein it all now in black and white  
I'd do it all to save you  
Changin the world ain't gonna make it right We're coming home, we're coming home  
You know it's now or never  
No afterglow this time I know  
But I'm feelin' kinda better We're coming home, we're coming home  
You know it's now or never  
This time I know, this time I know  
It's going on forever See me walk away  
You know it's now or never  
See me walk away  
I'm feelin' kinda better See me walk away  
You know it's now or never  
See me walk away We're coming home, we're coming home  
You know it's now or never  
No afterglow this time I know  
But I'm feelin' kinda better We're coming home, we're coming home  
(See me walk away)  
You know it's now or never  
This time I know, this time I know  
(See me walk away)  
It's going on forever I'm feelin' kinda better
