

# Dreamspace

## Stratovarius

Looking back through time to my childhood days  
I used to have a place where I could escape the reality  
But lately things have been so difficult for me  
Trying to reach for the light in the fall of darkness  
Waiting, watching my life, I'm wasting my time  
I'm losing grip from life  
Going back to my dreamspace, leaving it all behind  
Soon the things will be alright when I get there  
Who's there? Mother?  
I'm losing my mind  
Am I safe in here? Nothing left to fear  
I will close my eyes and float away with stream
