

We're All in This Together

[**Jack Ingram**](#)

Advisory - the following lyrics contain explicit language:

We all think we're special and I hate to have to say
There's a bunch of us on every corner of any town USA

We all got our problems, we all pay our dues

So if you're thinking no one understands, I got news for you Yeah, we're all in this together whether we like it or
not

So we might as well have a good time with the little bit of time we got

Yeah, life's too short to fuss and fight, we might as well be friends

'Cause we're all in this together, together till the bitter end You know everybody, we're all angry, and
everybody in here scared

You know everybody, we all want to feel well just like somebody cares

Hey man, you ain't gotta love nobody

Hell, you ain't even gotta like 'em as a matter of fact

'Cause we're all in this all together and tonight I got your back Yeah, we're all in this together whether we like it
or not

So we might as well have a good time with the little bit of time we got

Yeah, life's too short to fuss and fight we might as well be friends

'Cause we're all in this together, before death strikes We're all in this together whether we like it or not

So we might as well have a good time with the little bit of time we got

Yeah, life's too short to fuss and fight we might as well be friends

'Cause we're all in this all together, together till the bitter end

That's right, we're all in this all together, together till the bitter end
