Dream Child

Zonata

Dream Child is calling on me right now
Soon I'll be at sleep and away for a whileI am the helper with the power of Gods
Angry and ready to fight
Pain in my anger makes lightning seem weak
Now I'm gonna make you awake from this dream
Right nowSomeone is trying to break through the dream
Ruin and take all the things that you've doneI am the helper with the power of Gods
Angry and ready to fight
Pain in my anger makes lightning seem weak
Now I'm gonna make you awake from this dream
Right hereI'm walking inside this evil dream
But no one understands
What I did before this day
No one wants to see
I was cruel a damn fool
But I will carry onPain in my anger makes lightning strike down
Now I'm gonna make you awake from this dream
Right nowI'm flying through dreams with a mission to kill
Dream Child gives orders and I make the killI am the helper with the power of Gods
Angry and ready to fightPain in my anger makes lightning strike down
Now I'm gonna make you awake from this dreamRight now
Right here
Right now
Right here
Right now
