Go All the Way

Lower Class Brats

You pub-crawl the bars and drink
Always push it to the brink
I watch the streets late at night
I see you get into fightsAggro minds they start to swarm
They always crack and they don't warn
Don't let em push you around
Don't let em drag you downDon't let em don't let em
Go all the wayWeakness is fading fast
Strength is gaining at last
Maybe its not too late
But you still feed off their hate
