

The Monster In Me

Mr. Big

There's never been a midnight
that I don't jones for you
There's gravity in your eyes
A force of human nature
It's got me howling at the moon You pull me in
You peel my skin
And find my Frankenstein
You've got that shake-and-bake
that takes me to the other side
It don't take much
Your Midas touch
And you will set me free
You're getting close to curl my toes
And release the monster in me
Hey hey, yeah
I'm bitten by Delilah
So beautiful it hurts
Oh, It changes what's inside ya
A little taste of crazy
A craving and a curse You jack my eyes
Jekyll my Hyde
And torch my oxygen
You cut my ball and chain
It's all insane
The fun begins
It don't take much
Your Midas touch
And you will set me free
You're getting close to curl my toes
And release the monster in me
Yeah,
yeah yeah You pull me in
You peel my skin
And find my Frankenstein
You've got that shake-and-bake
that takes me to the other side
It don't take much
Your Midas touch
And you will set me free

You're getting close to curl my toes

And release the monster

in me

Hmm

oh no
