

Left At the Light

Buddy Jewell

(Musical Intro)

Heaven's been described as being paved with gold

Others say it's just a state of mind

Some folks don't believe that it exists at all

But if you ask me where it is and what it's like....I'd say it's(Chorus)

Left at the light, fourth house on the right

There's a big oak tree with a tire swing

At the gates of paradise.

There's an angel living there who's the answer to my prayers.

Heaven's right there left at the lightSome preachers say the only way of getting there

Is going down the straight and narrow road

But every time I take that turn I'm Heaven bound

And I don't even have to die to go.....I just turn(Chorus)

Left at the light, fourth house on the right

There's a big oak tree with a tire swing

At the gates of paradise.

There's an angel living there who's the answer to my prayers.

Heaven's right there left at the light(Chorus)

Left at the light, fourth house on the right

There's a big oak tree with a tire swing

At the gates of paradise.

There's an angel living there who's the answer to my prayers.

Heaven's right there left at the lightYeah, Heaven's right there left at the light...
