This Is Not the Time or Place

Hot Rod Circuit

understanding run right through my veins never ending sacrifice we made
remember when we sat in golden gate park in the presence of an officer
which probably wasn't very smart
twenty going on twenty-one try not to act so young
but where's the fun in trying chose the road
we're on and there's no turning back
sitting on the steps in st. mark's in the presence of an officer
which probably wasn't very smart.
