

From Where I'm Sitting

Gary Allan

He asked her to dance three songs ago
Now she pulls him closer as the music slows
The lights are growin` dim it's just her and him and the band
Funny, I used to love this song
I though it was our song but I guess I was wrong
From where I'm sittin` I can see where I stand

[Chorus]

From where I'm sittin` I can see where I stand
She's got her head on his shoulder and her heart in his hands
Thing's are pretty clear when a fool understands
Lord, from where I'm sittin` I can see where I stand

I've never seen her dance like that before
Don't think I can take much of this anymore
He's no longer the stranger and it looks like I am
I always dreamed I'd see that look in her eyes
But I never dreamed it would be for some other guy
And from where I'm sittin` I can see where I stand
