Good Love

Beres Hammond

Can't believe I say these words to you
Could you erase them from your mind
How could I, how could I[Chorus]
Oh no when I know
Good love is hard to find
If you dis you'll find
You shall do the time
Good love is hard to find, yes
If you dis you'll find (now you gonna find)
You shall do the timeIt's early in the morning
Stretched across the bed to touch you
And you're not there
I picked up the phone and called your best friend
I guess it's just not my day
'Cause you can't be found anywhere
The more I keep missing you I keep forgetting
You said you'd scratch me out of the page
It's funny how something simple
Can make you change[Chorus (repeat)]
When you're in love
It's such a wonderful thing
Makes you smile and sing
The joy you share no kid in candy land
Or fun world can compare
Don't tell me it's not meant to be
Just you and me for eternity
And maybe you have a different view
But I don't want you to go
'Cause you are all that I know
And I know[Chorus...]
