Say Yeah

Utopia

I didn't call this meeting and
I never heard such beating around
Around the bush and
You can't commit to something soYou won't come up with nothing at all
Unless you're pushed
But I wanna get this straightened out
I'm getting tired of waitingWhen I say when will you lay your love down for me
Don't say what
When I say why won't you put out something for me
Don't say what, say yeahWe had a good thing going but
We never did quite know what it was
But it was good so
Why don't we just start overAnd maybe I can help you lower your guard
I think we should
But you gotta stop resisting me
I wanna get some kissingI don't believe in magic but
You could avert a tragedy here
I got to say that
I think you've got the powerAnd you know the final hour has come
So don't delay 'cause
I wanna get this straightened out
I'm getting tired of waiting
