Jupiter

Fireside

Its been a while
Since I saw you the last time
And it feels like I never will againI told you that I am a mess
But you didnt seem
You didnt seem to careNo I cant hold you down
Try to think about me as before
I am the greatest fool of all
I am the greatest fool of allWhen things were a lot better
And we always looked at each other
With equal loveNever burning
The other ones heart on a stick
And just throwing it to wasteNo, I cant hold you down
I never really wanted to
I am the greatest fool of all
I am the greatest fool of allSo many things
I wanted you to know
But couldnt tell you on the phoneAfraid that you would laugh
And say that Im a fool
Well maybe I amBut I am the greatest fool of all
I am the greatest fool of all
I am the greatest fool of all
