

# Drachma

Yumi Zouma

I, won't, say, I'm, in, love  
when you call me  
I, know, I'm, not, the, one  
when you're stalling  
I can take a walk where I can't hear  
the rumble of a force that keeps them near  
they say they make your thoughts come true  
see me when you're free, I'll make you quit  
the feelings that you seek, it makes me sick  
I wanna see you miss and lose step your mark over the line  
I know you're working all the time  
try to pull wool cross your eyes  
trying hard to simplify  
the wounds  
that you house  
that you keep  
thereabouts  
in the deep  
in the back  
with your friends  
you're the best  
in the end I, see, the, way, you, say  
that you miss her  
I, get, that, restless, taste  
when I get spurned  
I just want a year that I dictate  
a silly little care to keep them sane  
until my fears come rushing back  
you could show me things, that make me shout  
I wonder if that's how you see me now  
I guess it's good I never cracked  
step your mark over the line  
I know you're working all the time  
try to pull wool cross your eyes  
trying hard to simplify the wounds  
that you house  
that you keep  
thereabouts  
in the deep

in the back  
with your friends  
you're the best  
in the end
