

All Night Long

Montgomery Gentry

Well the party started early about a quarter to three
Just a few close friends Charlie, Troy, and me
We just got started when somebody asked
How long you think this party's gonna last I said all night long, all night long
I said all night long, all night long
We'll be rockin', we'll be rollin'
Gonna boogie-woogie all night long Well the next door neighbors started raising a fuss
Said, you had a party and you didn't call us
I said put on your dancing shoes and come along
We'll be here till the cows come home And that's all night long, I said all night long
I said all night long, I said all night long
We'll be rockin', we'll be rollin'
Gonna boogie-woogie all night long
Ahh, guitar We'll be jumping through the windows and sneaking down the halls
Dancing on the ceiling, dancing on the wall
The last thing I remember 'fore the lights went out
I jumped up on the table and I started to shout I said all night long, all night long
I said all night long, all night long
We'll be rockin', we'll be rollin'
Gonna boogie-woogie all night long, I mean all night long I said all night long, all night long
I said all night long, all night long
I said all night long, all night long
I said all night long, all night long
We'll be rockin', we'll be rollin'
Gonna boogie-woogie all night I said all night long, I said all night long
I said all night long, I said all night long
I said all night long, I said all night long
Boogie all night long, I said all night long
We'll be rockin', we'll be rollin'
Gonna boogie-woogie all night long
