## **All Night Long**

## **Montgomery Gentry**

Well the party started early about a quarter to three

Just a few close friends Charlie, Troy, and me

We just got started when somebody asked

How long you think this party's gonna lastI said all night long, all night long

I said all night long, all night long

We'll be rockin', we'll be rollin'

Gonna boogie-woogie all night longWell the next door neighbors started raising a fuss

Said, you had a party and you didn't call us

I said put on your dancing shoes and come along

We'll be here till the cows come homeAnd that's all night long, I said all night long

I said all night long, I said all night long

We'll be rockin', we'll be rollin'

Gonna boogie-woogie all night long

Ahh, guitarWe'll be jumping through the windows and sneaking down the halls

Dancing on the ceiling, dancing on the wall

The last thing I remember 'fore the lights went out

I jumped up on the table and I started to shout I said all night long, all night long

I said all night long, all night long

We'll be rockin', we'll be rollin'

Gonna boogie-woogie all night long, I mean all night long said all night long, all night long

I said all night long, all night long

I said all night long, all night long

I said all night long, all night long

We'll be rockin', we'll be rollin'

Gonna boogie-woogie all night I said all night long, I said all night long

I said all night long, I said all night long

I said all night long, I said all night long

Boogie all night long, I said all night long

We'll be rockin', we'll be rollin'

Gonna boogie-woogie all night long
