Sweet Tooth

Marilyn Manson

Her heart shivers in my hand She's melting on me like cotton candy I make the faces that make you cry I want you more when you're afraid of mineDisease, disease is draining me Anymore you're not so pretty please Disease, disease is draining me I want you more when you're afraid of meI will break you inside out You are mine, you are mine I will break you inside out You are mine, you are mineHer hair hangs in swollen strings I'm choking on her, it feels so sickening I make the faces that make you cry I want you more when you're afraid of mineDisease, disease is draining me Anymore you're not so pretty, please Disease, disease is draining me I want you more when you're afraid of meI will break you inside out You are mine, you are mine I will break you inside out

Lyrics provided by https://damnlyrics.com/

You are mine, you are mine
