

# Baby I've Changed

Gabrielle

Baby, baby, baby  
BecauseIt's too many times you let me down  
When I needed you you could not be found  
So I picked up the pieces  
And tried to mend my broken heartThen you'd reappear always acting like  
Nothing was wrong everything's just fine  
Want us to get back together  
Get back into my lifeIf I don't mind where you go  
Please don't come around call this your home  
'Cos I don't mind where you go  
As long as you're not hereI don't mind where you go  
Please don't come around or call this your home  
'Cos I don't mind where you go  
As long as you're not hereBaby baby baby  
What did you think I'd say?  
That I'd take you back again?  
Oh baby I've changedNow you say you can't believe it  
How could I close the doors on you?  
Could it be that you've forgotten  
That you treated me so cruel?You made your choice 'cos you stayed away  
For much too long, now it's way too late  
Did you want me to sit around and wait  
Like I've always done?'Cos I don't mind where you go  
Please don't come around call this your home  
'Cos I don't mind where you go  
As long as you're not hereI don't mind where you go  
Please don't come around or call this your home  
'Cos I don't mind where you go  
As long as you're not hereBaby baby baby  
What did you think I'd say?  
That I'd take you back again?  
Oh baby I've changedBaby baby baby  
What did you think I'd say?  
No no no noYou always got what you wanted  
You knew I'd always oblige  
I'd always keep the door open  
Waiting for you to decideIt's too many times you've let me down  
When I needed you you could not be found  
So I picked up the pieces

Tried to mend my broken heart 'Cos I don't mind where you go  
Please don't come around call this your home  
'Cos I don't mind where you go  
As long as you're not here I don't mind where you go  
Please don't come around or call this your home  
'Cos I don't mind where you go  
As long as you're not here Baby baby baby  
What did you think I'd say?  
That I'd take you back again  
Oh baby I've changed Oh baby I've changed  
Oh baby I've changed  
Oh baby I've changed  
Oh baby I've changed Because  
Because
