

# Good Day to Die

## Hot Hot Heat

I woke up wrong this morning  
No reason why  
Los Angeles is pouring and Im like any guy  
Sophisticated ladies Ive never known  
So many little babies stuck without a homeIts a good day to die so come knock me over  
Say goodbye  
Its a good day to dieI get a hold of something  
Cant let it go  
And if it leads to nothing  
Well, at least I know  
The weatherman he told me its getting cold  
Now its the same old story  
Pockets filled with goldIts a good day to die so come knock me over  
Say goodbye  
Ill be on my way  
Its a tumble and tide pulling me under  
So turn out the lights  
Its a good day to...I get a hold of something  
Cant let it go  
And if it leads to nothing  
Well, at least I know  
Well, at least I knowIts a good day to die so come knock me over  
Say goodbye  
Ill be on my way  
Its a tumble and tide pulling me under  
So turn out the lights  
Its a good day to...
