

More Than This

Henry Green

I'll go anywhere you go (go)
Shaping my hands from the evening cold
And hope that the sunlight will follow
I want anyway you want
So long as we seize when the feeling goes
But tell me my love that you follow
That you follow We were built for more than this
Caught static till the motion shapes
I've been giving it all
Giving heart, giving soul, oh
We were built for more than this
Caught static till the motion shapes
I've been giving it all
We're not living like before
If only when the airs
And the mind disconnects from gravity
It will cleanse you clear in the showers
And the frames begins to fall
And I feel I've lost it all
I'll let the fear become sore
Because I feel We were built for more than this
Caught static till the motion shapes
I've been giving it all
Giving heart, giving soul, oh
We were built for more than this
Caught static till the motion shapes
I've been giving it all
We're not living like before
So tell me all the places that you've wanted to go
'Cause you know you'll never face these cold waters alone
So tell me all the places that you've wanted to go
'Cause you know you'll never face these cold waters alone
