

# Pressure Down

[John Farnham](#)

Oh yeah Set the wheels in motion  
And watch them turning round  
I wanna sail across the ocean  
I've grown weary of this town Take the pressure down  
'Cause I can feel it, it's rising like a storm  
Take hold of the wheels and turn them around  
Take the pressure down In this city full of danger  
We lead our separate lives  
And I was frightened by a stranger  
With desperation in her eyes Take the pressure down  
'Cause I can feel it, it's rising like a storm  
Take hold of the wheels and turn them around  
Take the pressure down Someone turned the pressure on  
I called your name and you were gone  
And I was trapped like a prisoner in this lonely town  
I'm gonna let things slide until the pressure comes down Oh, the winner tells his story  
The loser hides in shame  
The winner steals the glory  
While the loser takes the pain Take the pressure down  
'Cause I can feel it, it's rising like a storm  
Take hold of the wheels and turn them around  
Take the pressure down Take the pressure down  
'Cause I can feel it, it's rising like a storm  
Take hold of the wheels and turn them around  
Take the pressure down Take the pressure down  
'Cause I can feel it, it's rising like a storm  
Take hold of the wheels, turn them around  
Take the pressure down Take the pressure down  
'Cause I can feel it, it's rising like a storm  
Take hold of the wheels, turn them around  
Take the pressure down Oh, take the pressure down  
'Cause I can feel it, it's rising like a storm  
Take hold of the wheels, turn them around
