Little Black Heart

A-ha

I never saw sunlight
Burn as bright
I never felt darkness
The way I feel it tonight
You say it's getting better
You say it's alright
But I never felt darkness
Like I feel it tonight
Little black heart
Raindrops on my window
I can't tell them apart
Like the few things forgiven
In my little black heart
You say it's getting better
We just never got it right
But I never felt darkness
The way I feel it tonight
Little black heart
Some day we will shine
Like the moon in the morning
Like the sun when it's dawning
Yes the sun when it's dawning
The sun
Some day we will shine
Like the moon in the morning
Like the sun when it's dawning
Yes the sun when it's dawning
The sun
Raindrops on my window
I can't tell them apart
Like a few things forgotten
And a few things ignored
You say it's getting better
You say it's alright
But I never felt darkness
The way I feel it tonight
Little black heart
My little black heart
