One Night Only (The March)

Trombone Shorty

When the morning came, I looked all around the room.
And, I had no clue, what it was I did or didn't do,
Then all in a flash, my memory came around, reached out my hand, and you were no where to be found, nowhere 'roundChorus:
"I had you all night long,
I knew it all right when I asked your name, that you were the right one, but you werenot their when the morning came"I was makeing my way to the dance floor, when I caught the rays sunlight on a pretty little thing, - you know what I'm saying -
So I point to the ba ar, can I buy you a drink, you said let's keep on moving anin't no time to think,So don't think,Chorus:
"I had you all night long, I knew it all right when I asked your name, that you were the right one, but you werenot their when the morning came"----------Trombone Solo----------"I had you all night long, I knew it all right when I asked your name, that you were the right one"
