

What If I Never

Montell Jordan

Pick up the phone, where are you?
I'm fiending, girl for you
Laying here I saw you
Damn girl, I adore you
I can't believe, came so close
To losing you, almost
But, oh, I changed, just in time
But now and then I wonder what if I
What if I never met you at all?
What if I never turned you on?
What if I never loved you better?
Made you laugh when you are all pissed off
What if I never bought you thangs?
What if I never stopped playing games?
What if I never ever changed?
What if I never?
Now, you might say, I lost my mind
Thinking 'bout her all the time
Girl, got skills and sexy ways
She puts it down and I keep her laced
So even when my friends don't seem to understand
Ain't nothing comes between a woman and her man
I left my past and made you mine
But every now and then I wonder what if I
What if I never met you at all?
What if I never turned you on?
What if I never loved you better?
Made you laugh when you are all pissed off
What if I never bought you thangs?
What if I never stopped playing games?
What if I never ever changed?
What if I never?
What if I?
What if I?
(Didn't treat you like you should be treated)
What if I?
(If I didn't treat you like a queen)
Coulda lost everything
Baby, tell me what if I

What if I never met you at all?
What if I never turned you on?
What if I never loved you better?
Made you laugh when you are all pissed off
What if I never bought you thangs?
What if I never stopped playing games?
What if I never ever changed?
What if I never?
What if I never met you at all?
What if I never turned you on?
What if I never loved you better?
Made you laugh when you are all pissed off
What if I never bought you thangs?
What if I never stopped playing games?
What if I never ever changed?
What if I never?
What if I?
What if I?
What if I?
If I
