

Everything (between Us)

Liz Phair

We have everything we need here
We have everything between us
You have nothing left to fear, dear
'Cause it ain't ever gonna leave us
We might get a room downtown, now
Get away for a half day
We might drive a car down to the next town
Get away from our family
Let your body move real slow
Tell your body we left yesterday
Let your body hold me close
Let your body move you
We have everything we need here
We have everything between us
You have nothing left to fear, dear
'Cause it ain't ever gonna leave us
Let your body move real slow
Tell your body we left yesterday
Let your body hold me close
Let your body move you
Let your body move real slow
Tell your body we left yesterday
Let your body hold me close
Let your body move you
Let your body move you
Tell your body we left yesterday
Let your body hold me close
Let your body move you
We have everything we need here
We have everything between us
