Wit's All Been Done Before

Relient K

I wish I could, innovate
And try to stretch your minds
'Cause when often, times guys like me
Do that they leave themselves behindTo clean the mess, or to impress
A little bit of everyone
But to innovate, is a mistake
'Cause there's nothing new under the sun'Cause we're all getting tired of the media
'Cause it tries to hard to make you like something
'Cause we're all getting tired of the media
'Cause creating something new is just recycling
Wait wit's all been done beforeYeah we do something to death
Then we dig it up just to do it some more
And all my lines are pointing signs
But not all with dead ends
And I'm not sure if the clever words
All sit well with my friendsI will not just sit and watch
And me the victim fall
I'll just have to do what my gut tells me to
And hope that you will buy it all'Cause we're all getting tired of the media
'Cause it tries to hard to make you like something
'Cause we're all getting tired of the media
'Cause creating something new is just recycling
Wait wit's all been done beforeYeah we do something to death
Then we dig it up just to do it some more
Wait wit's all been done before
Yeah we do something to death
Then we dig it up just to do it some moreOriginality is a ghost town
And it's oh so hard to get to
And when you do, then people start to hate you
Just scream what you believe out loud in a crowd
People will hate you'Cause repetition's just so safe
And repitetion's just like prison
And I prefer to be out of place
'Cause I'm not really into prison
Wait wit's all been done beforeYeah we do something to death
Then we dig it up just to do it some more
Wait wit's all been done before
Yeah we do something to death
Then we dig it up just to do it some more'Cause we're all getting tired of the media

'Cause it tries to hard to make you like something
'Cause we're all getting tired of the media
'Cause creating isn't new just recycling
Wait wit's all been done beforeYeah we do something to death
Then we dig it up just to do it some more
Wait wit's all been done before
Yeah we do something to death
Then we dig it up just to do it some more
