

Heart On Fire

Scars on 45

And bowl me over black and blue
It's far too hard to say I'm all over you
And take my pulse and hose me down
My hearts on fire I've said these words a thousand times
The bathroom mirror stopped and smiled
So take my pulse and hose me down
My hearts on fire 'Cause when you're standing on your own
And you feel you've got nobody round you
Yeah you know I'll be the one who helps you from your knees
When you're standing on your own
And you feel you've got nobody round you
Yeah you know I'll be the one who helps you from your knees
My hearts on fire
My hearts on fire I wish you'd never show me now
It seemed so easy to turn you down
And so it seems you are my tears
Is your heart on fire?
