This Thing Called Love

Incognito

Here we are trying to find a meaning for it all
As time keeps slipping away
We take our place in the roles like dominos
Hoping we wont be the ones to fallIs it so hard to see
That none of us are free, oh no
Until we all understand
That this fate can belong to us allHave we learned, that the answer is not the war
With the children dying by the score, oh
Educate and share the wealth with every nation
We owe it to ourselvesBut is it so hard to see
That none of us are free, oh, no, no, no
Until we all understand
That we all have a piece of the truth oh
