It`s Too Late

Steadlur

I bet your parents they don't wanna know
Everywhere we'll go
You're sneaking out the window

Come with me
Tonight you're fantasy
Is just you and me
The way it's meant to be

I want you
You know i want you to
Want me too
Don't let me down

It's too late
To turn back
Can't you see how far we've come now
It's too late to turn around

The sun is rising you don't wanna go
Don't wanna be alone
It's a long drive home

Your make-up's running and your hair's a mess
But you look your best
And now i must confess

I want you
You know i want you to
Want me too
Don't let me down

It's too late to turn back
Can't you see how far we've come now
It's too late to turn around
Don't think about

Where we've been
Just where we're going
This world is spinnin' out of control

Don't turn around

I bet your parents they don't wanna know
Everywhere we'll go

I want you
You know i want you to
Want me too
Don't let me down

It's too late
To turn back
Can't you see how far we've come now
It's too late to turn around
Don't think about

Where we've been
Just where we're going
This world is spinnin' out of control
Don't turn around
