

# It`s Too Late

## Steadlur

I bet your parents they don't wanna know  
Everywhere we'll go  
You're sneaking out the window

Come with me  
Tonight you're fantasy  
Is just you and me  
The way it's meant to be

I want you  
You know i want you to  
Want me too  
Don't let me down

It's too late  
To turn back  
Can't you see how far we've come now  
It's too late to turn around

The sun is rising you don't wanna go  
Don't wanna be alone  
It's a long drive home

Your make-up's running and your hair's a mess  
But you look your best  
And now i must confess

I want you  
You know i want you to  
Want me too  
Don't let me down

It's too late to turn back  
Can't you see how far we've come now  
It's too late to turn around  
Don't think about

Where we've been  
Just where we're going  
This world is spinnin' out of control

Don't turn around

I bet your parents they don't wanna know  
Everywhere we'll go

I want you  
You know i want you to  
Want me too  
Don't let me down

It's too late  
To turn back  
Can't you see how far we've come now  
It's too late to turn around  
Don't think about

Where we've been  
Just where we're going  
This world is spinnin' out of control  
Don't turn around
